

Learning Management System

We are happy to partner with Evolved Safety to provide SECURA policyholders access to a Learning Management System (LMS), powered by SafetySkills®. This cloud-based training program can help reduce accidents and injuries, and we believe utilizing this LMS will help support a safe work environment. If you're interested in learning more, please contact your risk manager for details.

Industries

The SafetySkills LMS offers safety training courses for a range of industries, including:

- Construction
- Food services
- General Safety
- Grocery
- Hospitality
- Manufacturing
- Retail

Benefits

The robust and intuitive LMS delivers online courses to your workforce.

Award-winning content

- Over 1,000 courses created by industry experts
- Courses are regularly reviewed to adapt to changing regulations and requirements

Assign, train, and track

- Auto-assign courses
- View course completions
- Track overdue or missed assignments

Complete reporting

- View employee compliance based on number of assigned courses
- Create and save custom reports
- Automatically email reports at desired intervals

Group training

- Create training sessions for specific departments and roles
- Utilize quizzes to ensure competency
- Schedule group training sessions and add reminders to anyone's calendar

Pricing

The annual pricing is dependent upon which subscription plan you choose. Fee for courses can be purchased as single course credits or an annual flat rate, allowing flexibility for companies based on the number of employees and need for training. SECURA can help cover the set-up costs associated with your SafetySkills LMS subscription. Contact your risk manager to learn more about the plan options and pricing.
