Keep this in your vehicle

We hope you are never involved in an automobile accident. But if you are, take the following actions:

1. Do not leave the scene.

- Call the police.
- Help anyone that may be injured, but don't move them unless absolutely necessary.
- Direct other traffic around the accident.

2. Get names, addresses, phone numbers, and driver's license numbers of all drivers.

5. Take photos of the damage and vehicles involved.

6. Using the diagram on the right, draw the accident and all cars involved.

7. Do not place or accept blame for the accident.

Do not express opinions on fault, make admissions, sign statements, or record statements unless you are asked to by the investigating officer or an identified representative of SECURA Insurance.

8. Make an immediate report to the police.

Some states require you to fill out state accident forms. Please check with the local police department to determine your obligation.

9. Make an immediate report to your supervisor.

When you have an accident, contact your supervisor or fleet manager as soon as possible.

Accident diagram

○ Indicate north in the circle with an arrow and note street names

The diagram shows a four-way intersection. Each quadrant has a dashed line representing a lane and a solid line representing a curb. The top and bottom lanes are wider than the left and right lanes. A circle at the top left is intended for indicating north.
